PROBLEM STATEMENT

TIME CONSUMING SEARCH WHILE BOOKING

Search conducted on booking engines was very time consuming because the search process was not optimized. The challenge was to display search results within a second. Also, the content was not properly consolidated.

CIS APPROACH

BOOK FLIGHT, HOTEL, CAR ALL IN ONE PLACE

CIS used various cutting-edge application programming interfaces like Skylink, Sabre, Amadeus, TBO, Expedia and Rezliv to bring together flight, hotel and car booking all under one roof. Website owner can view all the bookings done via website. Reports containing booking details can be easily exported. A unique functionality added by CIS helped travel agencies to apply web analytics and business intelligence for data-driven, smart decision making.
